HONGQI

Better Car, Better Life

H5

MODERN & LUXURY FOR BETTER LIFE

Eagle Wing design Headlamp

The design of the headlamp, inspired by the eagle with spreading wings, which shows dynamic and high identified characters. LED headlamps provide the best illuminating view field and distance with lower energy consumption and longer life.

LED tail lamp show sharpness and delicacy

The LED tail lamps make the back of the vehicle more steady, and are extremely dynamic with two rectangular exhaust pipe.

Dual rectangular design exhaust pipe

The back design shows the whole vehicle wide and rounder. The luxurious and dynamic design of trunk cover matches the rectangular exhaust pipes.

19-inch wheel hub

Full of sense of strength, also ensures super driving control.

Simplicity & Intelligence

The Hongqi H5 provides you with generous and comfortable interior space.

BLIS Blind Area Monitoring System:

When a vehicle enters the blind area of the vehicle, the warning light on the outside mirror on the corresponding side will light up, thus effectively reducing the risk of lane merging and improving the driving safety.

Adaptive Cruise Control (ACC)

Advance ACC system maintains a constant speed and distance from the vehicle ahead by automatically accelerating and braking by using a front radar sensor.

360 Panoramic View

The onboard screen panoramically displays real time image to make the parking safer and more efficient

New type High Strength Steel

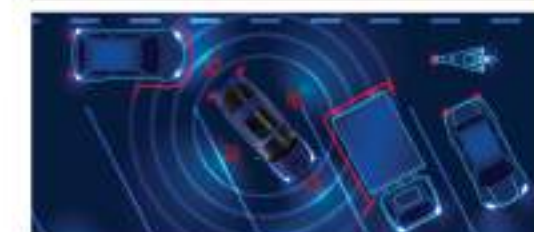

Vertical Interlinkage, Enhanced closed loop structure. Pulling through floor longitudinal beam.

Increased structural glue coating and welding spots technology. Rolling craft of side sill.

AEB Automatic braking for easy response to emergency

Industry-leading active brake system detects distance from front vehicle (or pedestrian) in real time and initiate automatic brake to prevent imminent collision to ensure safety.

Auto Parking

The Auto Parking system enables you to easily cope with vertical and horizontal parking.

Spaciousness

The 2,875mm wheelbase offers a spacious and comfortable space for driver and passengers.

Seat Adjustment control system and front seats warming & cooling air ventilation system provide you maximum seating comfort all year round.

Air Purification System

The Unique active indoor air cleaning technology can monitor and clean the air at real time.

TFT Supervision Cluster

The supervision cluster with 7" color TFT LCD and floating 10" touch screen allows multimedia information to be displayed higher and near your line of sight.

1.8T Direct Injection Turbocharged Engine

1.8T direct injection turbocharged engine with a maximum power of 145kW and a peak torque of 320Nm.

With enough output power and low fuel consumption.

Perfect integration of comfortable-ness & mobility

The optimized suspension system balancing loading and low noise, improves the driving comfort. Multi-link independent suspension promoting riding comfortableness, contact patch and mobile safety.

AISIN 3rd Generation 6 AT Transmission

Aisin AW is one of the four subsidiaries of Japan's Aisin Group. "AW" is the abbreviation of "Aisin Warner", while Warner represents the famous BorgWarner.
