## JEEP® WRANGLER. THE NATURAL BORN ADVENTURER

---

For more than 75 years, Jeep® has been the genuine icon of freedom. The latest Wrangler is born with all this extraordinary experience, ready to live new adventures, anywhere you wish: connect with everything you're looking for from the ground up, climb in from a different angle, dive into the unexpected. Wrangler is built to survive, to always be by your side and drive you to new heights. To thrive, to dream, to be the one in control: with Jeep® Wrangler, it's just a wide-open world.

RUBICON

JEEP® WRANGLER.  
THE ICON OF PIONEERING SPIRIT.

---

What makes Wrangler a beacon of freedom? Well, just take a look to understand. The iconic seven-slot grille is the symbol of the Jeep® brand and all that comes with it. Engineered to survive any conditions, forged for the extreme: uncompromising attention to detail is paid to the exterior design. Open the top and feel the wind in your hair. Be that true pioneer.

FREEDOM TOP® HARDTOP.

The Freedom Top® Hardtop offers the best of both worlds for a Wrangler driver: to enjoy the shade or the sun, with comfort and reliability. Strong, secure and available in Black, or for Wrangler Overland, the roof is available in your exterior paint colour. This three-piece modular design lets you bring in the sun as you see fit: remove either front panel or both, or leave them in place and remove the main rear portion. If you prefer the classic Top for your ride, the Jeep® Wrangler also offers its reliable, high-quality Soft Top\*, protecting your vehicle with its unmistakable style.

\*Only available as part of the Dual Top cost option.

JEEP® WRANGLER.  
THE INNER BEAUTY EXPLORER.

---

The spirit of adventure lies in everyone of us: all you need to do is just unleash it and let it go free. That's why Wrangler interiors are detailed and refined: the cabin helps to make every trip comfortably fun with superior features and soft touch panels. Thanks to its weather resistant surfaces and wash-out interior Wrangler always love a spray-down.

ADVENTUROUS FROM EVERY POINT OF VIEW.

Wrangler offers you the perfect riding height with enough elevation to see more of the road ahead. The height-adjustable driver's seat adds an opportunity to lift your spirits just that much higher. The steering wheel places cruise control, audio and standard Electronic Vehicle Information Center (EVIC) control settings at your fingertips.

The nine-speaker premium Alpine audio system creates a realistic sound stage by utilizing 552-watt amplifier, two tweeters, an 8x12-inch subwoofer, four 6.5-inch speakers and two 3.5-inch speakers located in the overhead sound bar. Alpine is known for offering outstanding tonal balance and definition. Welcome to a new wave in sound engineering (standard on Sahara, Overland and Rubicon).

MORE FREEDOM TO ENTERTAINMENT.

The nine-speaker premium Alpine audio system creates a realistic sound stage by utilising a 552-watt amplifier, two tweeters, an 8x12-inch subwoofer, four 6.5-inch speakers, and two 3.5inch speakers located in the sound bar. Alpine is known for offering outstanding tonal balance and definition. Welcome to a new wave in sound engineering

Manage all of your media with the UConnect™ System.

**VOICE COMMAND.**  
It simplifies driving by letting you keep your eyes on the road and your hands on the steering wheel. Use your voice to select radio stations, and make calls.

**NAVIGATION.**  
UConnect™ also provides enhanced GPS navigation and destination entry via Voice Command. Find a restaurant, airport, museum, or department store, and get directions with a simple request.

**PHONE.**  
Talking on the phone while driving has never been easier — or more responsible. Uconnect™ Phone is the in-vehicle voice-activated communication system that allows you to talk on your Bluetooth® compatible phone virtually hands-free.

**MUSIC.**  
You'll have several ways to access Audio: get the sound going via CDs/DVDs, MP3s, remote USB port, auxiliary input jack, Voice Command, and Bluetooth® streaming audio.

JEEP® WRANGLER.  
POWER TO EXPLORE.

---

Every great adventure starts with great performance. That's why Wrangler has a strong and generous heart to fulfill any demanding and extreme driving experience: with two different powerfull engines and automatic transmission, nothing can stop it.

## BE THE ONE IN CONTROL.

---

Naturally, such a legendary car has all the power to drive it anywhere it pleases. The Pentastar 3.6 Euro 6 Petrol engine delivers the power to match Wrangler's legendary brawn. This efficient powerhouse boasts 284 HP with 347 Nm of torque and is cast from lightweight aluminium. The 2.8 Euro 6 4-cylinder Common-Rail Diesel engine pumps out 200 HP at 3600 rpm and 460 Nm of torque at 1600–2600 rpm. The automatic transmission with autostick controls the engine torque and helps you to move smoothly through every gear.

JEEP® WRANGLER.  
THE BEST TRIP MATE EVER.

---

Half of the adventure is choosing which path to follow. With Wrangler you have three different choices: Sahara, Overland and Rubicon. All born from the same DNA, enabling you to experience the exhilaration of outdoor adventures. Drive away from boredom. Extreme sports, rocky trails, muddy woods or sandy dunes are all the perfect stage for Wrangler to perform.

## TRAIL RATED: JEEP'S PROUD BIRTHMARK.

The Trail Rated badge is a seal of quality embedded in our unique off-road DNA. It's a confirmation of every Wrangler's on- and off-road mastery, assuring that once behind its wheel, you can safely navigate through any terrain.

The Trail Rated badge entails five test categories.

### TRACTION

Dirt, ice, sand, mud, gravel... Whatever surface you're driving through. The Jeep's Trail Rated traction helps you maintain controlled forward motion, mastering all kinds of topography and driving conditions.

### WATER FORDING

For a Trail Rated Jeep Wrangler, streams provide little challenge! Every Wrangler has great water fording capability, benefiting from additional electrical and body seals, plus a high air-intake location.

### MANEUVERABILITY

Unpredictability is the core of every off-road driving experience. That's why the Wrangler is born with the athletic ability to navigate narrow gaps, handle emergency situations and avoid cosmetic damage to underbody sills thanks to precision steering, a tight turning radius, optimised wheelbases, and generous approach, departure and break-over angles.

### ARTICULATION

In life, you can't go very far if you're not versatile. The same thing goes when driving off-road. That's why the Wrangler's suspension systems enhance on- and off-road performance by maximising flexibility, axle articulation and wheel travel. This standard indicates that when one or more wheels are elevated, the Jeep 4x4 system helps the others stay on the ground longer to keep you moving.

### GROUND CLEARANCE

Nothing gets between a Wrangler and adventure. After all, your Trail Rated Wrangler has optimised approach, departure and break-over angles designed to clear logs, rocks and uneven ground. Your undercarriage is also protected, with forged skid plates that cover your vehicle's most valuable underbody elements.

EQUIPPED TO GO ANYWHERE.

THE COMMAND-TRAC® 4X4

Command every inch of your next adventure. The Command-Trac 4X4 is a proven shift-on-the-fly system with a 2.72:1 low range for rock crawling and neutral for flat towing.

When four-wheel power is required, like for off-roading or in slick conditions, where more traction is required, the Command-Trac® 4x4 system with NV241 GII transfer case kicks into action. It splits torque 50/50 to the front and rear axles for off-roading or conditions where more traction is required.

THE ROCK-TRAC® 4X4

This unique 4x4 system is a true legend. And for good reason: it includes three differentials that can be locked. In fact, the Rubicon model's NV241 OR transfer case with 4:1 low gear ratio, Brake Lock Differential, Tru-Lok®electronic locking differentials and electronic front sway bar disconnect allows amazing off-road capability.

The unique system delivers more control and torque at the wheels and lets you go virtually anywhere you point it. The Rock Track 4:1 low gear ratio and crawl speed make it easier for Wrangler to trek over every obstacle.

RUBICON: THE LEGENDARY VERSION OF A CLASSIC.

ELECTRONIC FRONT SWAY BAR DISCONNECT

Flip a switch and the sway bar disengages when driving under 18 mph in 4WD-low (4LO) mode. This allows the front suspension to travel up to 25 percent farther on Rubicon than on Sahara and Overland models. (Standard only on Rubicon.)

DANA® 44 HEAVY-DUTY SOLID AXLES

A true classic is made to last – and to be completely trustworthy. Durability comes from heavy shafts, stiff housings, large pinion bearings and above-center pinion mountings for smoother, quieter operation. (Rear Dana® 44 standard on all models. Front Dana 44 standard only on Rubicon.)

TRU-LOK® LOCKING DIFFERENTIALS

Front and rear electronic-locking differentials balance speed between left and right wheels, maintaining forward momentum for the ultimate in traction. An instrument panel-mounted rocker switch can lock either the rear or both axles. (Standard only on Rubicon.)

JEEP® WRANGLER SAHARA. IN THE HEAT OF ANY ADVENTURE.

The right mix of standard capability and comfort, Wrangler Sahara always looks the part with side steps and body-colour wheel-arch flares. Sahara arrives well specified with a robust list of standard options.

STANDARD:

- 18" Polished satin alloy wheels
- 3.73 Rear axle ratio
- Auto-dimming rearview mirror with reading lamps
- Automatic headlamps
- Black Freedom Top 3-piece modular hard top
- Body-colour wheel arches
- Bright interior accents
- Cargo compartment floor mat
- Climate control
- Cloth seats with adjustable head restraints
- Command-trac shift-on-the-fly 4WD
- Cruise control
- Deep-tint sunscreen glass
- Electronic Stability Control (ESC)
- Front & rear fog lamps
- Front and front side airbags
- Front floor mats
- Full metal doors with roll-up windows
- Full size spare wheel + cover
- Hill descent control
- Hill start assist
- Keyless entry with immobiliser
- Leather-wrapped steering wheel
- Power convenience group
- Power heated mirrors
- Power locks
- Power windows, front one touch down
- Premium audio (Alpine®) system with subwoofer
- Sentry key® theft deterrent system
- Steering wheel mounted audio controls
- Transfer case skid plate shield
- Trip computer
- Tubular side steps
- Tyre pressure monitoring display
- Uconnect® phone with voice command

N.B Interior image shown with Optional Satellite Navigation system.

JEEP® WRANGLER OVERLAND. PERFORMS IN ANY CHALLENGE.

Whether you choose the two or four door, the Petrol or Diesel engine, this Wrangler Overland has the ability to take you into a thrilling 4WD world of adventure. The Overland trim level includes a high level of standard features, plus even more available options, allowing you to customise your Wrangler to suit your requirements.

Standard Equipment in addition to Sahara:

- Body coloured Freedom Top 3-piece modular hard top
- Heated front seats
- Leather trimmed upholstery
- Media centre with Uconnect™, USB connectivity & 6.5" colour touchscreen satellite navigation

JEEP® WRANGLER RUBICON. OFF THE OFF-ROAD.

Wrangler Rubicon is a true warrior, born to conquer the grueling Rubicon Trail. This top specification Wrangler is made for those who truly want to experience four-wheel-drive freedom at its finest.

## RUBICON

Standard Equipment in addition to Sahara:

- 18" Rubicon alloy wheels
- Black, Heated leather seats
- Front sway bar - disconnectable
- Mopar slush mats
- Next generation dana 44 HD front axle
- Rock rails
- Rock-trac with 4.1 rear axle ratio
- Tru-lok® differentials
- Wheel arch flares - accent colour

N.B Interior image shown with Optional Satellite Navigation system.
