

BMW X1

Sheer
Driving Pleasure

www.bmw.com/X1

THE BMW X1.

JOY IS A LIFE FULL OF POSSIBILITIES.

JOY KNOWS
NO COMPROMISE.

**JOY AWAITS
AROUND THE
NEXT CORNER.**

**JOY MEANS REACHING YOUR DESTINATIONS
AND MAINTAINING YOUR CURIOSITY.**

A JOY SHARED IS A JOY DOUBLED.

THIS HAS GONE IN.

The pleasure you get from driving a BMW is the result of fine engineering – always setting the benchmark because it is based on much more than engine power. This is the tradition behind BMW EfficientDynamics. It includes the visionary Hydrogen engine, already used in a number of completely emission-free BMW 7 Series saloons. Also going into production soon is the BMW ActiveHybrid – an intelligent, demand-oriented combination of internal combustion engine and electric motor. And every BMW already includes a multi-award-winning BMW EfficientDynamics technology package as standard that boosts dynamics even further while simultaneously reducing fuel consumption and CO₂ emissions.

Valvetronic

Petrol engines with Valvetronic have fully variable valve lift control. This improves the engine's responsiveness and running smoothness while also significantly reducing fuel consumption.

Auto Start/Stop function

BMW four-cylinder engines with 6-speed manual transmission automatically shut down when the vehicle is stationary, for example at a red light or in a jam, when the driver activates the clutch and switches to neutral. The engine restarts as soon as the clutch is activated again. This innovation significantly reduces fuel consumption especially in city traffic.

Optimum Shift Indicator

Timely gear shifts are one of the most effective and easiest ways to save fuel. This is where the Optimum Shift Indicator in conjunction with 6-speed manual transmission comes in. It shows the driver what gear to use in order to save fuel.

Common Rail Injection system

The third-generation electronically controlled Common Rail Injection system generates pressure of up to 1,800 bar. Diesel fuel can be injected with greater precision and in exactly calculated amounts. This lowers consumption and emissions while at the same time enhancing engine performance.

Disengageable

air conditioning compressor

If the air conditioning is not being used, the air conditioning compressor in all diesel models is uncoupled from the belt drive, which prevents the usual loss of energy.

Brake Energy Regeneration

To supply a battery with electrical energy, the generator (alternator) is permanently driven using engine power, which demands additional fuel consumption. Brake Energy Regeneration means the generator usually only generates electricity when the driver takes his foot off the accelerator or the brake – previously unused kinetic energy is transformed in coasting mode into electrical energy before being fed into the battery. In this way, electricity is generated while coasting, without consuming fuel.

Some BMW EfficientDynamics features are dependent on the car's equipment and are not available for all model variants. Your BMW partner will be happy to provide you with information on all equipment details.

THIS IS WHAT COMES OUT.

BMW already offers 24 models with CO₂ emissions of 140 g/km and significantly less. But that's just for starters. We're carrying on our research with BMW EfficientDynamics – in the quest to bring you more driving pleasure and less emissions.

■ Standard equipment □ Optional equipment ○ Original BMW Accessories

□ **Xenon Headlights for high and low beam**, incl. daytime running lights, headlight washing system, four light rings and taillights with LED light rods, for significantly better illumination of the road at night and in poor weather or light conditions.

□ **Adaptive Headlights with variable light distribution**, incl. turning lights, only in conjunction with Xenon Headlights, optimally illuminate corners as soon as the driver turns into them through electromechanical control of the pivoting headlamps.

■ **Fog lights**, integrated in the front apron, for improved safety in poor visibility. Option includes heated exterior mirrors and windscreen washer nozzles.

□ **High-beam assistant** helps the driver at night by automatically switching between high and low beam according to oncoming traffic, vehicles driving in front and when road lighting is sufficient.

□ **Rain sensor, incl. automatic driving lights:** Once activated, the rain sensor automatically turns on the windscreen wipers according to the intensity of the rain and independently controls the wiper interval. The integrated automatic driving lights automatically switch to low beam at dusk or when entering tunnels.

□ **Lights package** includes vicinity lights in the door handles, which illuminate the area outside the doors for 20 seconds when the doors are unlocked to ensure safe access in the dark. Other features include reading lights at the front and rear, footwell illumination at the front, vanity mirror lights for driver and passenger, and ambient light.

■ **Window recess covers in chrome** (for X1 xDrive28i and X1 xDrive23d).

□ **BMW Individual High-gloss Shadow Line** includes the surrounds of the B-pillar, window guide, window recess covers, mirror triangle and mirror frame in Black, high-gloss.

■ Standard equipment □ Optional equipment ○ Original BMW Accessories

□ **Panorama glass roof** with large opening and viewing area and wind deflector. The front half of the glass can be electrically raised by touch control and also has a sliding function, electric sliding roofliner (sun protection) as well as a comfort open/close function with trap release.

□ **BMW Individual roofliner Anthracite.** In addition, the sunblinds and roof grab handles are in Black.

□ **Roof railing, black:** Harmoniously matched to the car's design, this system forms the basis of a multifunctional BMW roof support for effortless and safe transportation of luggage, bicycles, surfboards etc.

□ **Roof railing Aluminium satinated:** For an individual look, the roof rails are also available in a flat-profile version in Aluminium satinated (only in conjunction with X Line).

■ **Exterior mirrors**, in body colour, both electrically adjustable and aspheric on the driver's side. The mirrors can also be heated.

□ **Interior and exterior mirrors with automatic anti-glare function.** When a defined incidence of light is registered from following vehicles, the mirrors automatically adjust to the anti-glare position.

□ **X Line** includes exhaust tailpipes with chrome frame, selected features in Aluminium satinated – front bumper, incl. grille slats in the air inlet, rear bumper and side sills.

■ **Dynamic Braking Lights** help vehicles following behind to see how hard you are applying the brakes. During normal braking, the brake lights cover a large area. Only during emergency braking do the brake lights begin to flash. This allows following traffic to immediately distinguish between light braking and full braking – for even greater driving safety.

□ **Tow bar** with removable ball head (the ball head can be conveniently stowed away under the luggage compartment floor). Depending on the model, the trailer load can be up to 2,000 kg.

■ Standard equipment □ Optional equipment ○ Original BMW Accessories

■ **Steel wheels with full-size wheel covers¹**, 7.5 J x 17-inch, 225/50 R 17 tyres. Also available as a complete winter wheel-and-tyre set in the Original BMW Accessories range*.

□ **BMW light-alloy wheels star-spoke 317¹**, 7.5 J x 17-inch, 225/50 R 17 tyres (standard on X1 sDrive20d and X1 xDrive20d). Also available as a complete winter wheel-and-tyre set in the Original BMW Accessories range*.

□ **BMW light-alloy wheels V-spoke 318¹**, 7.5 J x 17-inch, 225/50 R 17 tyres (standard on X1 xDrive28i and X1 xDrive23d).

□ **BMW light-alloy wheels star-spoke 319¹**, 7.5 J x 17-inch, with 225/50 R 17 tyres.

□ **BMW light-alloy wheels star-spoke 320**, 8 J x 18-inch, with 225/45 R 18 runflat tyres.

□ **BMW light-alloy wheels double-spoke 321**, 8 J x 18-inch, with 225/45 R 18 runflat tyres.

□ **BMW light-alloy wheels Y-spoke 322** with mixed runflat tyres, 8 J x 18-inch at the front on 225/45 R 18 tyres, 9 J x 18-inch at the rear on 255/40 R 18 tyres.

□ **BMW light-alloy wheels comb styling 323** with mixed runflat tyres, 8 J x 18-inch at the front on 225/45 R 18 tyres, 9 J x 18-inch at the rear on 255/40 R 18 tyres.

¹ Including BMW Mobility Set or optional with runflat tyres. The availability of runflat tyres may vary by country.

* May not be available in all countries.

■ Standard equipment □ Optional equipment ○ Original BMW Accessories

- **Sports leather steering wheel** (diameter 369 mm) with thumbrests, chrome clasp and three spokes.
- **Multifunction buttons on steering wheel** for remote control of radio or telephone (optional).
- **Sports leather steering wheel with gearshift paddles** for a particularly dynamic driving style (in conjunction with the 6-speed automatic transmission Steptronic, without thumbrests); available on the X1 xDrive28i and X1 xDrive23d.

- **Leather steering wheel** (diameter 375 mm), three spokes.

- **Cruise control with braking function** stores and maintains the desired speed, from approx. 30 km/h (controlled by the left-hand steering column stalk).

- **6-speed manual transmission** allows a very sporty driving style. It is very smooth, with perfect ratios and precise, short-throw gearshifts. The closely spaced gear ratios and the addition of a sixth gear enable the driver to make even more individual use of the engine's characteristics.

- **6-speed automatic transmission Steptronic** (standard for X1 xDrive 28i and X1 xDrive 23d) allows for very fast, precise gearshifts and maximum dynamic performance (shift paddles for the sports leather steering wheel are optional on the X1 xDrive28i and X1 xDrive23d).

■ Standard equipment □ Optional equipment ○ Original BMW Accessories

■ **On-board computer** provides information about average speed, average and current fuel consumption, range and outside temperature.

■ **Optimum Shift Indicator** lets you know when it is more economical to drive in another gear. It indicates when to shift up or down and adapts these recommendations to your driving style (for models with 6-speed manual transmission).

■ **Auto Start/Stop Display** signals on the Info Display when the engine has been switched off by the Auto Start/Stop function (for instance, at traffic lights or in a jam). The display is turned off when the engine is re-started automatically (for four-cylinder models in conjunction with 6-speed manual transmission).

□ **Navigation system Business**, incl. CD drive, iDrive Controller with direct menu control buttons, functional bookmarks, integrated storage facility for navigation data and high-resolution 6.5-inch display.

□ **Navigation system Professional***, incl. radio BMW Professional, with DVD drive, iDrive Controller with direct menu control buttons, eight functional bookmarks, integrated hard disc for maps and audio files, fixed and high-resolution 8.8-inch graphic display, map or perspectival route display, bird's-eye view.

□ **BMW Assist*** supports the driver with various services: automatic and manual emergency call, Traffic Info plus*, My Info and a personal information service.

□ **BMW Online*** allows access to internet-based services such as e-mail, tailor-made portals for news, stock market figures and weather reports, as well as information from the Google Maps database.

* Not available in all countries. Please consult your BMW partner.

□ **Park Distance Control, front and rear**, facilitates parking and manoeuvring in confined spaces, giving an acoustic signal to indicate the distance between your car and an obstacle. In conjunction with an optionally available navigation system, the distance is also shown visually in the Control Display.

□ **Park Distance Control in the rear.**

□ **Rear view camera** clearly shows the area behind the vehicle on the Control Display. Interactive guidelines indicate, for example, if a parking space is large enough for the vehicle. If the BMW has a tow bar, the image area is enlarged. The rear view camera is automatically activated when reverse gear is engaged (in conjunction with a navigation system).

■ Standard equipment □ Optional equipment ○ Original BMW Accessories

■ **AUX-IN connection**, incl. 12-V socket for an external audio source such as an MP3 player.
 □ **USB/audio interface** for connection of a USB stick or MP3 player. Stored tracks are shown on the display of the optional radio BMW Professional or on the Control Display included in a navigation system (also optional). The system is operated using the buttons on the multifunction steering wheel, radio BMW Professional or the iDrive Controller. The USB/audio interface can be extended to include comfort connection for mobile phone music player.

■ **Air conditioning**, with microfilter, for a comfortable interior climate any time of year.
 □ **Automatic air conditioning** (shown here), with Automatic Air Recirculation, microfilter, fogging and solar sensors, quickly creates the desired climate and maintains the selected temperature. Separate temperature control for left and right sides.

■ **Radio BMW Business CD**, with FM, MW and LW reception, five station buttons, automatic volume adjustment, CD player with MP3 capability, six loudspeakers.
 □ **Radio BMW Professional**, features as radio BMW Business CD, additional connection for CD-changer, six loudspeakers and a two-line display (shown here).

□ **harman/kardon Surround Sound System** with powerful amplifier, equalizer, centre speaker and 11 loudspeakers for superb sound. Surround sound function enables simulation of various acoustic environments.
 □ **HiFi loudspeaker system** with eight loudspeakers for brilliant sound.

□ **CD-changer for six CDs** (available in conjunction with a navigation system or the radio BMW Professional).

□ **Preparation for mobile phone with Bluetooth interface**, incl. hands-free system, connection for recharging and external aerial, front ambient lighting. A separately available snap-in adapter enables connection of a Bluetooth-compatible mobile phone, which can also be operated via iDrive (in conjunction with navigation system).

○ **DVD system in the rear**¹ includes a monitor with 7-inch colour display integrated into the centre armrest. The DVD system plays video DVDs and audio CDs (incl. MP3 format) and can also be used to display JPEG images. When the monitor is not in use it pivots 180 degrees and folds down. It also comes with an AV input. Infrared headphones available from BMW as an option.

¹ Due to be available from January 2010 from Original BMW Accessories.
 This feature is retrofitted. Please contact your local BMW partner for detailed information.

■ Standard equipment □ Optional equipment ○ Original BMW Accessories

□ **Front armrest**, sliding, incl. a 12-V socket and detachable cupholder.

□ **Seat heating** (with three levels) for driver and front passenger. Seat surface and backrest, including side supports, can all be heated and deliver warmth shortly after you pull away.

■ **Standard seats** with manual adjustment of seat height, fore/aft position, backrest angle and height of headrests.

□ **Lumbar support** for driver and front passenger, electrically adjustable in height and depth, for an ergonomically perfect seat position and support of the back muscles.

■ **ISOFIX child seat attachment, rear** on the two outer rear seats for safe attachment of a child seat with clip-in plug connectors plus additional fastening points on the upper part.

□ **Front passenger airbag deactivation.**

□ **Seat adjustment** for driver and front passenger with electric seat height and backrest adjustment, as well as fore/aft and seat angle adjustment, with memory function for driver's seat and exterior mirrors (including automatic parking function). Two personalised positions can be stored for the settings of the driver's seat and the exterior mirrors.

■ Standard equipment □ Optional equipment ○ Original BMW Accessories

□ **Sports seats** for driver and front passenger, with higher seat cheeks and electric seat backrest width adjustment for optimum lateral support. Manual adjustment of fore-and-aft position, seat height, backrest angle, seat angle and thigh support.

○ **Smoker's package**¹ including cigarette lighter and ashtray in the front centre console. The portable ashtray can also be attached to the cupholder in the rear armrest.

■ **Personal Profile:** This stores your personal preferences depending on equipment for settings such as the temperature and air distribution of the automatic air conditioning, the position of the driver's seat and exterior mirrors, and the volume and sound of the radio. Settings are then activated when you unlock the central locking.

□ **BMW Service Inclusive.** When it comes to service, your BMW partner will always have an intelligent solution ready for you. BMW Service Inclusive ensures that you will incur no extra costs for scheduled service and maintenance work within the defined time period or mileage. To find out more, visit www.bmw.com/serviceinclusive

□ **BMW Welt:** Taking delivery of a car has always ranked among the best moments for any car driver. Now that moment can become a truly unforgettable day at BMW Welt, the experience and delivery centre in Munich, Germany. Visit the Museum, tour the plant or explore the Technology and Design studio – BMW Welt brings you the true fascination of BMW. Experience more online at www.bmw-welt.com

¹ Available from Original BMW Accessories.

■ Standard equipment □ Optional equipment ○ Original BMW Accessories

MORE STORAGE SPACE, MORE POSSIBILITIES.

The new BMW X1 adjusts flexibly to your requirements. Whether you want to transport skis or snowboards, store larger items of luggage safely, or simply appreciate having such a large range of stowage options available, the new BMW X1 will delight you again and again with its impressive versatility.

■ **Storage compartment:** A spacious compartment is located in the upper section of the dashboard (in cars not fitted with a navigation system).

■ **Bottle holders:** safely accommodating bottles of various sizes and located in each of the front and rear doors.

□ **Tensioning straps in the front door pockets** provide space for useful items (only in conjunction with storage package).

■ **Cup holder,** located in the centre console and within easy reach.

□ **Luggage compartment partition net,** can be fixed into the roofliner behind the front or rear seats, providing protection from items falling into the passenger compartment and allowing the luggage compartment to be loaded safely up to the roof. When not required, it can be folded up into a bag and stowed away in the luggage compartment floor.

○ **Ski and snowboard bag¹** allows up to four pairs of skis or two snowboards to be transported cleanly and safely when up to four people are inside the car. The ski bag is easy to detach and can also be used outside the car. When not required, it can be stored – without taking up much space – in the bag supplied.

¹ Available from Original BMW Accessories.

■ Standard equipment □ Optional equipment ○ Original BMW Accessories

□ **Storage package:** Beyond the many standard storage facilities, the optional storage package additionally offers a host of intelligent and differently sized storage possibilities such as a glasses compartment in the driver's side roofliner, storage nets on the front seat backrests, an attachable cupholder, three 12-V sockets (under the front folding centre armrest, in the rear centre console and in the luggage compartment), a rear armrest incl. two cupholders, a storage net on the right of the luggage compartment, tensioning straps in the front door pockets, two tensioning straps on the luggage compartment floor, one tensioning strap on the luggage compartment side wall and a storage compartment with partition elements under the luggage compartment floor.

12-Volt sockets (three) are located under the folding centre armrest, in the centre console trim in the rear and on the right of the luggage compartment.

Cupholder, attachable, incl. mounting on the centre console.

Storage compartment under load compartment floor has four variable partition elements for flexible usage.

Rear armrest with two integrated cupholders.

Glasses compartment in the roofliner allows you to reach your glasses or store them safely away in a single movement.

All dimensions in the technical drawings are given in millimetres. Luggage compartment volume 420 – 1,350 litres. Values in () are for vehicles with panorama glass roof.

¹ Planned availability as of December 2009.
² Figures are based on a 90% fill-up, driver's weight of 68 kg and 7 kg of luggage. Unladen weight applies to vehicles with standard equipment. Optional equipment may increase these figures.
³ The actual total weight of the trailer may not exceed the maximum permitted trailer load plus maximum permitted towbar download.
⁴ BMW recommends the use of RON 95 super unleaded petrol. Unleaded RON 91 and higher with a maximum ethanol content of 10% (E10) may also be used. Output and consumption figures apply to RON 98 fuel.
⁵ All engines comply with the EU5 emissions standard. Fuel consumption is determined in accordance with the ECE driving cycle (93/116/EC) made up of approximately one-third urban traffic and two-thirds of extra-urban driving (based on the distance covered). CO₂ emissions are measured in addition to fuel consumption. Fuel consumption is determined for vehicles with standard equipment. Optional equipment (such as wider tyres) may have a significant impact on fuel consumption.
⁶ Height with roof antenna is 1,573 mm.
⁷ With optional high-speed setup.

Values in [] apply to vehicles with 6-speed automatic transmission Steptronic.

BMW Recycling.

Your BMW is the product of a comprehensive recycling concept. But what exactly does that mean in practice? It means that all the requirements of recycling are taken into account from the start, in the initial development of a BMW. One example is careful material selection designed to preserve resources and to ensure efficient recycling compatible with the environment. Each BMW is designed and built for simple and economic recycling after its long-running life. Since 1994, we have been collecting the know-how required for this purpose at the unique BMW Recycling and Dismantling Centre (RDC) near Munich. At the same time, the BMW Group is establishing a complete network of vehicle recycling facilities within Europe, focusing in the process on the high standards of quality and environmental care that BMW is renowned for. Please contact your BMW partner on all matters regarding your end-of-life vehicle. They will be happy to help.

The models illustrated in this brochure show the specifications for the German market. In part, they include optional equipment and accessories not fitted as standard. According to the specific requirements of other markets, alterations in models, standard and optional equipment, as described in this brochure, may occur. For precise information please contact your BMW partner. Subject to change in design and equipment.
